About the Company

RISMOT

TRADING & ENGINEERING SERVICES

Company overview

RISMOT Trading & Services FZ-LLC is a UAE-based company established in RAKEZ, Ras Al Khaimah.

We specialize in HVAC and Refrigeration, Machinery and Heavy Equipment spare parts. We also provide engineering procurement and sourcing services.

Our customers include contractors, construction and industrial companies, cold storage and logistics operators, equipment rental companies, and distributors.

We serve customers across the UAE, GCC, Africa, and other international markets.

RISMOT focuses on reliable products, competitive sourcing, and responsive service.

Our goal is to be a trusted partner for HVAC, refrigeration, machinery, and heavy equipment needs.

Products and Solutions

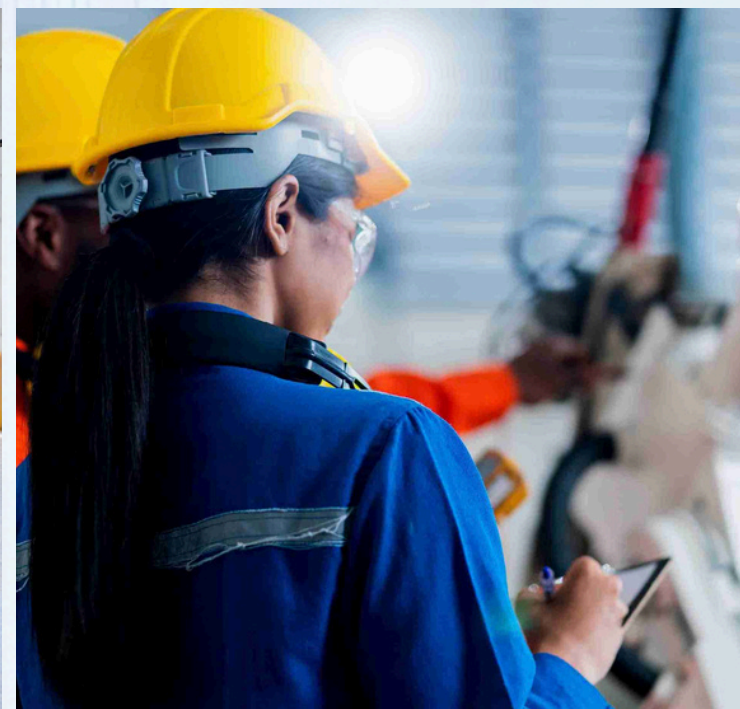

1 HVAC & Refrigeration

We supply and source HVAC and refrigeration spare parts and equipment for commercial and industrial applications, supporting contractors, cold stores, and facility operators.

2 Machinery and Heavy Equipment

Machinery and heavy equipment, including excavators, loaders, forklifts, telehandlers, access platforms, and more. We also supply spare parts to support maintenance and reliable operation.

3 Engineering Consultancy

We provide technical advice on refrigeration and mechanical systems. Our services include equipment selection and project support. We also support system optimization and practical engineering solutions.

Services and Capabilities

Strategic Sourcing

Identifying and procuring quality products, equipment, and spare parts from leading manufacturers and approved suppliers worldwide.

Supply

Providing efficient procurement, logistics coordination, and delivery support for industrial, commercial, and engineering projects.

Technical Support

Supporting customers with product application guidance, equipment recommendations, and engineering consultancy services to optimize performance and reliability

Markets We Serve

RISMOT supports customers across multiple industries through trading, sourcing, procurement, and technical consultancy services.

Commercial

Office buildings, retail facilities, commercial developments, and service providers requiring equipment, spare parts, and technical solutions.

Construction & Infrastructure

Contractors, project developers, and infrastructure projects requiring heavy equipment parts, industrial products, and procurement services.

Hospitality & Facilities Management

Hotels, resorts, cold storage facilities, and facility management companies requiring HVAC, refrigeration, and maintenance solutions.

Industrial

Manufacturing facilities, processing plants, warehouses, logistics centers, and industrial operations requiring machinery, components, and engineering support.

Energy & Utilities

Power generation, utility operators, and industrial service companies requiring reliable equipment and technical products.

Trading & Distribution

Local and international distributors seeking sourcing support, procurement services, and access to global supplier networks.
